May 5, 2012 Step 3. Go to the folder "\GTA IV" or "\EFLC" (whichever your version is) and open the Data folder. Step 4. Copy and paste the content of \Data\Config.json to the Data folder of the GTA IV or EFLC folder Step 5. Go to \Data\Scripts\train\Scripts and open the train.gxt file with notepad. Step 6. Remove the part which states {"the following cities"}, replace them with the names of your cities, make sure the "the following cities" section after the list of cities is not commented. It should look like this: { "cities": [{ "name":"Sometime City", "cityId":"Sometime City", "country":"USA", "capitalId":"Sometime City", "stateId":"Sometime City", "returnTo":0, "setFps":10, "weight":1, "logFile":"Sometime City", "infos":"[{"name":"Sometime City","year":2006,"confidence":0.88,"introText":"Sometime City is a small country lying between the two huge countries, Mexico and USA. The capital of the country is located in a small Pacific region."},{"name":"Great Chichicano of The World","year":2007,"confidence":0.937,"introText":"Great Chichicano of The World is a small country just east of Mexico and California, USA. It is a very temperate country."},{"name":"Showmatch of The World","year":2008,"confidence":0.897,"introText":"Showmatch of The World, a large country, almost half the
